UTOPIAN
ACADEMY FOR THE ARTS
HIGH SCHOOL

Course Description
Visual Arts & Graphic Design Pathway

Visual Arts and Graphic Design focus is tailored to nurture the creative talents of young artists and designers. This course offers comprehensive training in traditional visual arts, such as drawing, painting, and sculpture, alongside modern graphic design techniques. Scholars will learn about design principles, digital illustration, typography, and the use of industry-standard software. The curriculum includes hands-on projects, critiques, and portfolio development, allowing scholars to showcase their work and receive constructive feedback. Scholars will explore the use of digital tools and industry software in Adobe Suites, Canva, Sketch, Gimp, and a host of other platforms. Scholars will be equipped with the skills and knowledge to pursue further studies or careers in visual arts and graphic design.
